

OVERVIEW

Slick! v8.5 is the latest version of Slick! for Windows. It now supports viewing of AutoCAD 2000/2002 dwgs in addition to the older AutoCAD formats from Release 12 and a host of raster and document formats. It is priced at \$195 per single-user license. Network versions are available.

Slick! LT v8.5 is also available. This smaller version has all the features of the regular Slick! except the database feature is disabled. It is priced at \$125 per single-user license. Network versions are **NOT** available for Slick! LT.

The database allows you to export information from the drawing's title block into a separate file which you can use to search for drawings. It also allows you to add additional information relating to each individual drawings.

MAJOR NEW FEATURES:

- ?? high-resolution conversion of drawings to cals group iv, pdf, and other raster file formats
- ?? OLE support
- ?? support for AutoCAD 2000/2002 drawing layouts
- ?? Mechanical Desktop ACIS entities
- ?? support for true type fonts
- ?? support for AutoCAD 2000/2002 lineweights
- ?? online help
- ?? improved viewing of embedded raster images
- ?? improved database indexing
- ?? improved HPGL support including auto-orientation for mirrored images
- ?? create raster Adobe PDF files from zoomed-in portion of drawings, plot files and append to existing PDF
- ?? batch convert files to PDF format using your Adobe PDFWriter printer driver (highly accurate)
- ?? image invert for raster images; this feature will only work on black-and-white images
- ?? double-clicking on PDF, DGN, or Solidworks file extensions will launch the application registered to these extensions
- ?? print to black option
- ?? batch print PDF files using Slick! as a front-end to Adobe Acrobat Reader
- ?? support for HPGL advanced features

STANDARD FEATURES:

- ?? view over 200 file formats including dwg, dxf, plt, tiff, bmps, etc
- ?? use as a front-end for AutoCAD; you can open or insert the drawing being viewed into an AutoCAD session

- ?? convert DWG, DXF, and PLT files to raster formats including PDF
- ?? built-in database (Slick full version only) to keep track of your files; user configurable fields
- ?? markup or redline dwgs and other supported files
- ?? plot stamp on plotted output
- ?? always active zoom windows and pans
- ?? file and directory window always visible; just double-click on a filename to view; no need to do a File - Open the traditional windows way;
- ?? fast file open;
