

Slick! v8.5 New Features

Slick v8.5 improvements to the previous v8.0 version:

-batch conversion of all supported formats to Adobe Acrobat PDF at any standard paper size. This includes large format engineering and architectural E- size. V8.0 can only convert to 8 ½" by 11".

-option to crop white space from the converted output

-new ability to convert files to jedmics and gif. Previous version could not convert to this formats

-improved display for raster formats. Previous versions could not display some raster formats clearly.
